

**ELEVATING SPACES WITH INNOVATIVE
DESIGN AND PREMIUM PRODUCTS.**

FROM THE FOUNDER

Dear Friends and Partners,

Welcome to Nuordic, where design goes beyond aesthetics to transform spaces and enrich lives. Growing up in Stockholm, Sweden, I was immersed in an environment that celebrated clean lines, natural beauty, and thoughtful simplicity. The timeless elegance of Scandinavian design, which has always resonated with me, is the foundation upon which Nuordic is built.

My vision in founding Nuordic was simple: to combine exceptional quality with modern design that inspires creativity and innovation. By blending the classic influences of my upbringing with contemporary design principles, we create products that are both beautiful and practical.

We proudly serve Interior Designers, Architects, Real Estate Developers, Homeowners, and Retail Business Owners, delivering solutions that elevate both the form and function of any space. I look forward to seeing how our designs help bring your vision to life.

Warm regards,

Arash Ghaderi, Founder & CEO

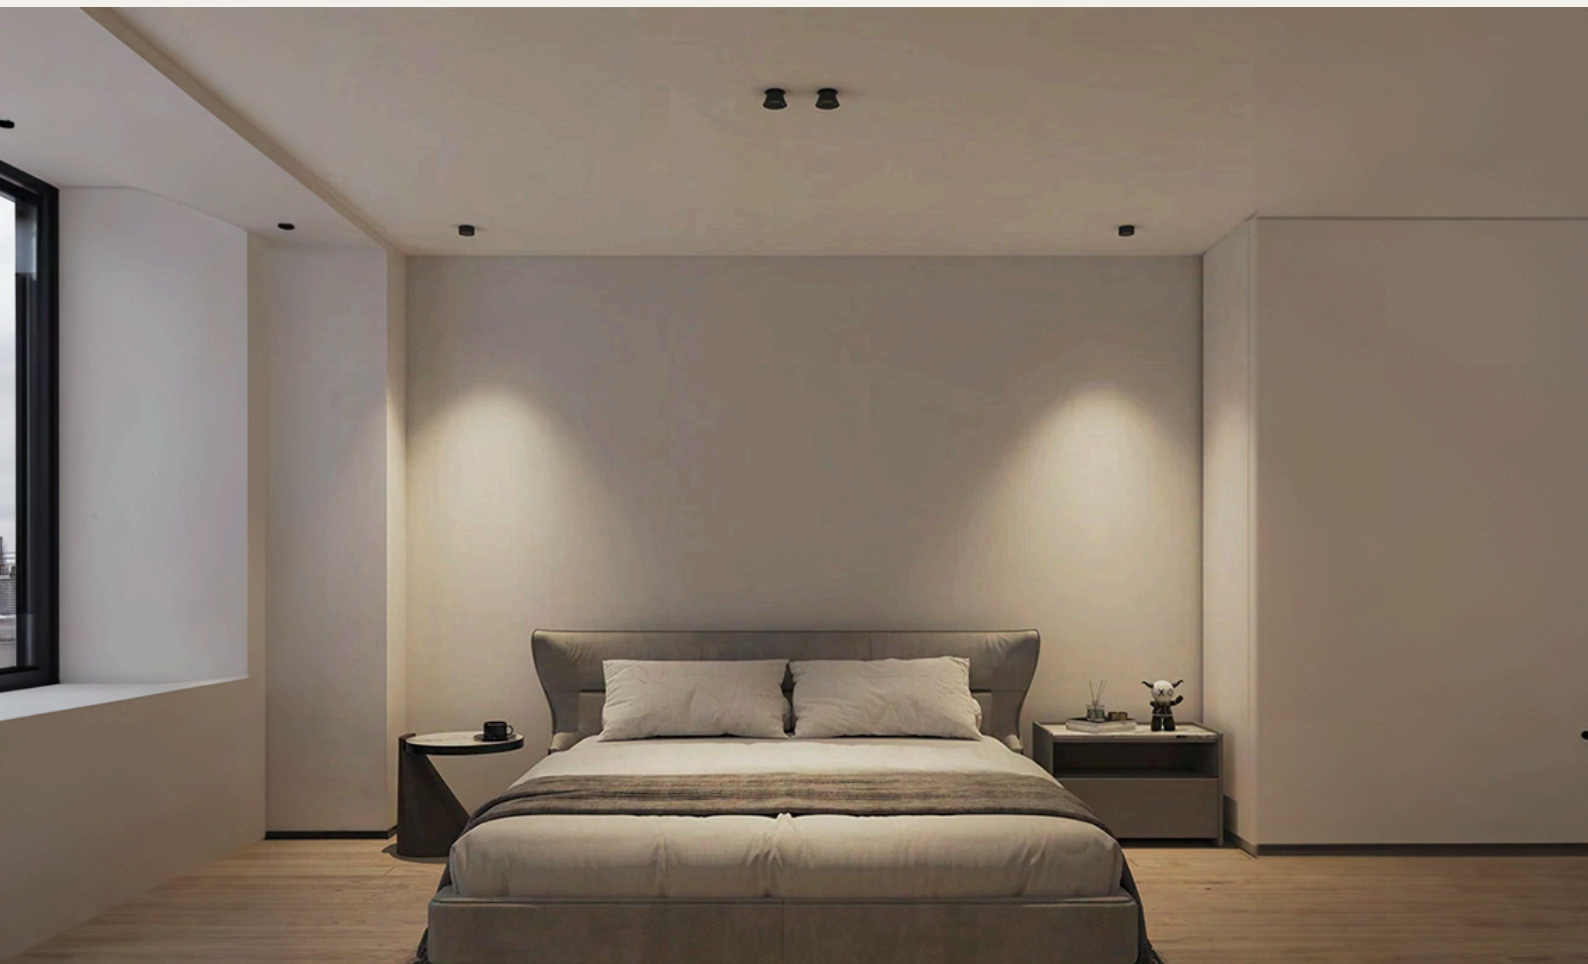

Arash Ghaderi

OUR STORY, OUR IDENTITY

At Nuordic, we transform everyday spaces into inspiring environments through exceptional design rooted in the timeless elegance of Scandinavian aesthetics. Inspired by our founder's upbringing in Stockholm, Sweden, we combine quality craftsmanship, innovative design, and sustainable practices to create products that are as functional as they are beautiful. Our modern furnishings, innovative lighting, and custom design solutions reflect a commitment to clean lines and natural materials, enhancing any space with sophistication and style.

Proudly serving interior designers, architects, real estate developers, homeowners, and retail business owners, Nuordic is your creative partner in delivering design-forward solutions that elevate both form and function. With efficient shipping from our hubs in the US and Canada, we are dedicated to ensuring that our exceptional products reach you quickly and reliably, no matter where you are.

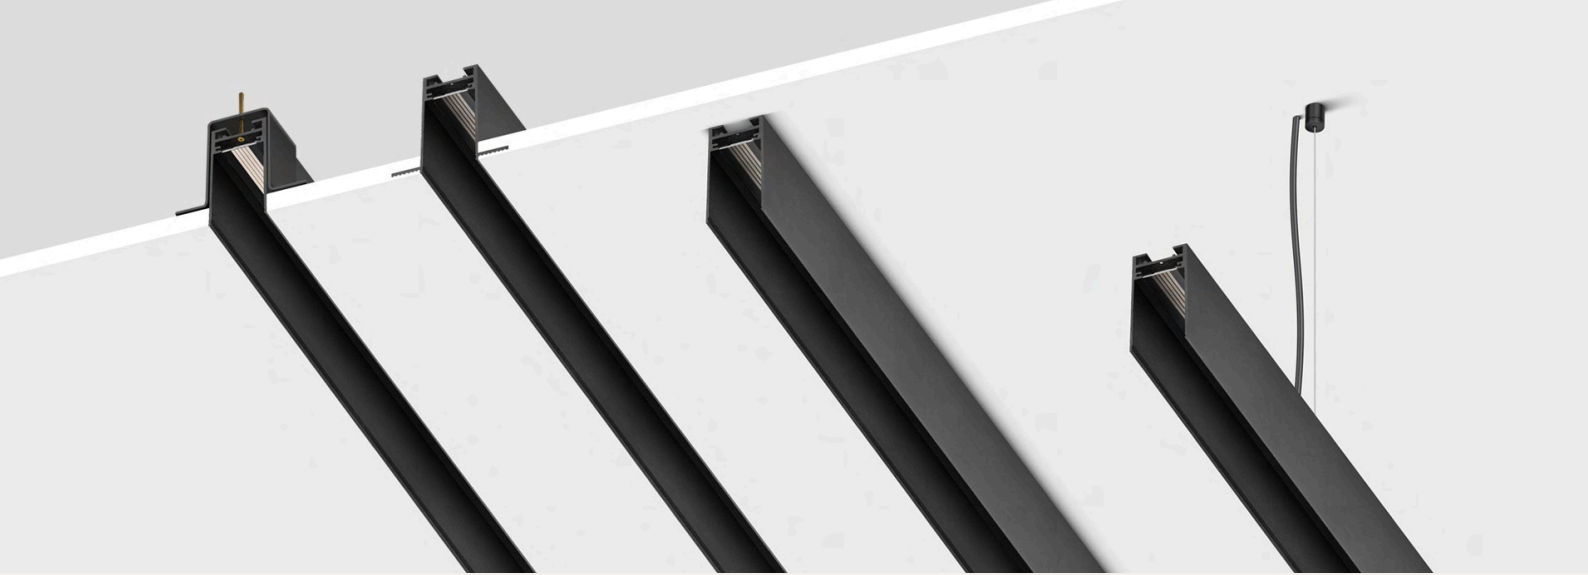

RECESSED DOWNLIGHTS AND SPOTLIGHTS

Our downlights and spotlights are engineered for superior performance and durability, featuring a cold-forged aluminum construction that ensures exceptional strength and longevity. Designed to meet North American standards, these fixtures carry an ETL rating, assuring you of their compliance and safety. With an optional IC box for enhanced insulation and the choice between square or round options, our lights offer versatile installation to suit any space.

PREMIUM QUALITY DOWNLIGHTS

Available in 3-inch, 2-inch, or 1-inch sizes and a range of colours including white, black, and gold, these fixtures combine aesthetic appeal with high functionality. They come with a magnetic fixing system for easy installation, a safety rope for added security, and an aluminum reflector cup that optimizes light distribution. Boasting a 97 CRI for outstanding colour rendering, our downlights and spotlights are available in both trim and trimless designs, ensuring you have the perfect lighting solution to match your style and project requirements.

MAGNETIC TRACK LIGHT

Our magnetic track lights deliver a highly adaptable lighting solution engineered for recessed, surface-mounted, or pendant installations, all powered by a reliable 24V system. Designed with versatility in mind, these track lights offer a wide range of light attachment options, allowing you to tailor the lighting configuration to meet the specific needs of any space—from accent lighting to task lighting or even creating dramatic, artistic effects. The magnetic fixing system ensures quick and secure installation, making adjustments effortless as your design needs evolve.

Available in two distinct sizes, our track lights are built to suit various environments. The standard 1.5-inch option is ideal for large homes and commercial spaces, providing robust illumination and a statement presence in expansive areas, while the slim 1-inch version is perfect for smaller residential settings where space is at a premium without sacrificing performance. Both sizes are meticulously crafted to meet the highest safety and quality standards, boasting an IC rating and an ETL certification for North American compliance. With Nuordic's magnetic track lights, you get a lighting solution that is not only highly functional and customizable but also rigorously tested to ensure safety and enduring performance in any application.

LINEAR LIGHTS

Our linear lights range from multi spot configurations to linear aluminum profiles, offering a versatile and modern lighting solution for both indoor and outdoor applications. Designed with durability in mind, these lights deliver sleek, uniform illumination that transforms spaces into showcases of contemporary design. The multi spot lights option allows for dynamic, customizable placement, perfect for creating accent lighting effects or emphasizing architectural features. Meanwhile, our linear aluminum profiles provide a minimalist aesthetic with robust construction, ideal for both residential and commercial settings.

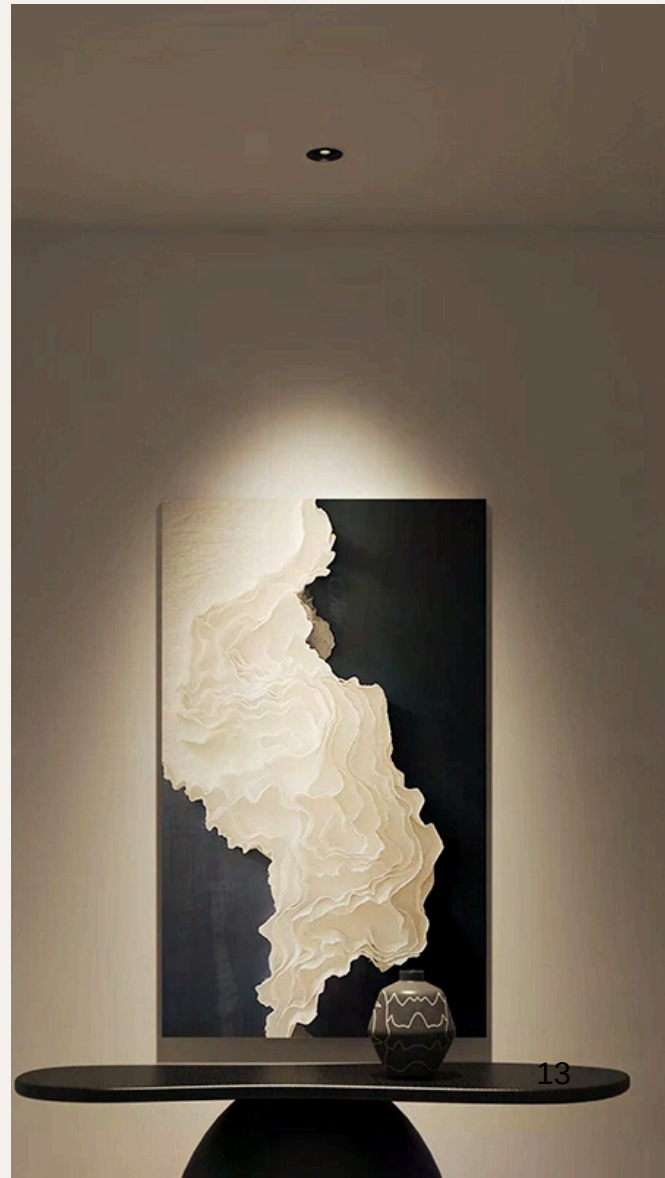

Crafted from high-quality materials, our linear lights are engineered to perform consistently in diverse environments. Whether you're looking to enhance the ambiance of a cozy indoor setting or illuminate expansive outdoor areas, our products offer energy-efficient performance and exceptional longevity. With design options that cater to a range of styles and applications, Nuordic's linear lighting solutions not only meet but exceed modern safety and quality standards, making them the perfect choice for elevating any space.

EMPOWERING PROFESSIONALS

Our value lies in our commitment to innovative design, exceptional quality, and sustainable practices. Drawing inspiration from Scandinavian minimalism, every product—from modern furnishings and lighting solutions to custom-designed elements—is meticulously crafted to blend aesthetics with functionality. Our rigorous adherence to industry certifications and quality standards ensures that our offerings not only meet but exceed expectations, transforming every space with enduring style and performance.

We proudly serve a diverse range of professionals, including interior designers, architects, real estate developers, homeowners, and retail business owners. Our versatile, design-forward solutions empower you to bring bold visions to life, creating environments that are both inspiring and practical. At Nuordic, we partner with you to elevate spaces, ensuring that every detail counts in crafting an atmosphere of excellence and innovation.

LET'S CREATE SOMETHING EXTRAORDINARY

We invite you to experience the transformative power of exceptional design. Whether you're an interior designer looking to elevate your next project, an architect in search of innovative materials, or a homeowner ready to redefine your space, we are here to help you bring your vision to life.
